Many young people in Ghana face limited access to mentorship, career guidance, and professional development opportunities, which are critical for their professional growth and career progression.

To bridge this gap, Youth Bridge Foundation (YBF) is facilitating a mentorship initiative aimed at supporting young people across various professional and academic disciplines.

As part of this effort, we are inviting experienced professionals from diverse fields to volunteer as coaches and help shape the future of emerging talents, leaders, and professionals.

The initiative will commence with Tullow Alumni Connect Scholars (TAC) to create a strong foundation for meaningful mentor-mentee interactions.
